### Requirements for the major = 76 credits, plus an additional 18 credits in conservation/environmentally related courses (see below), 11 credits of Social World Gen Ed Courses (AT or AT, HS, Int. Exp., of which one must be a “U”), and 15 elective credits for a total of 120 total credits to complete all university requirements.

### Earth Science elective – GEO-SCI 100(f), 101(f,s), 105(f,s), 201(s), PLSOILIN 105

### Completion of a plan that incorporates 18 additional credits in conservation or environmentally related courses designed to meet specific goals for career or advanced education. Nine credits must be 300-level (see below).

### Physical Science elective – CHEM 250(s), PHYSICS 100(f,s), 118, 139(f)

### Natural Resources Economics elective – RES-ECON 263(f) or RES-ECON 262(s)
For the Environmental Conservation concentration, the requirement of completion of 18 additional conservation and/or environmentally-related credits in a curriculum plan designed to meet specific goals for career or further education, at least 9 credits of which must be 300-level or above courses, can be met with the following courses:

ANTHRO 317 Primate Behavior  
ARCH-DES 520 Building Physics I  
ASTRON 105 Weather and our Atmosphere  
BIOLOGY 108 Biodiversity  
BIOLOGY 297B Marine Vertebrates
